About Me

I'm Ozan, a multidisciplinary designer with 6+ years of experience bridging industrial design and digital craft. My background spans UI/UX, motion graphics, 3D animation, and brand identity, giving me a rare ability to think in both physical and digital dimensions.

Experience

- Nov 2024 – Present
  Creative Team Lead Sidekicklabs

  Led end-to-end creative for an AR smart glasses product on Qualcomm AR1 chip. Redesigned hardware, prototyped in Singapore, built brand identity, UI system, and website. Co-directed the promotional video from concept to launch.

- Jul 2023 – Present
  Founder K2arts Studio

  Built and run a creative studio serving international clients in fintech, SaaS, and product sectors. Deliverables span UI/UX, motion design, brand identity, and marketing collaterals.

- Jun 2023 - Dec 2023
  Product Designer Fydez

  Designed motion-driven UI with interactive onboarding flows, micro-interactions, and visual feedback systems aligned with the brand tone and product goals.

- May 2022 – Jun 2023
  Motion Graphic Designer Acun Medya

  Produced broadcast-ready motion graphics, lower thirds, and promos for major entertainment formats and international audiences. Specialized in dynamic transitions and 3D compositions.

Designing with clarity, building with purpose
